

PAUL JOY JR.

Computer Science, B.S.

PROFILE

I have been fascinated with technology ever since I received my first Game Boy Pocket for my kindergarten graduation. I am interested in App/Web Development, Software Engineering, and Game Development. I am looking forward to an internship to help prepare me for my professional journey throughout life, where I can demonstrate the skills I have learned in my courses at IUPUI.

EDUCATION

Indiana University – Purdue University, Indianapolis (IUPUI)

Spring 2017 - Dec 2020

GPA: 3.078

Computer Science Major, focusing on Web Development, both Server-Side and Client-Side programming as well as Software Development/Engineering and App/Game Development.

Purdue University – West Lafayette

Fall 2011 - 2016

Completed General Education classes for Computer Science, Accounting, Economics, and Political Science. Member of Theta Chi Fraternity, Greek Officer of EDM Committee, Competed in Intramurals, Participated in many Philanthropies.

PROJECT EXPERIENCE

Burmese American Community Institute (BACI) – Team Leader

Worked with a group of 3 others to help develop a website for BACI. The website provided a mentee and mentor management system where users were able to create accounts, search for mentors/mentees based on preferred settings. Admins could approve pairings, view members, resumes and other unique privileges. We used JQuery, Bootstrap, php along with HTML5 for database management and created our database using phpMyAdmin.

WORK EXPERIENCE

Uber – Driver

August 2019 – Current

Delivering food from a restaurant to a customer in a safe, appropriate manner while providing excellent service by communicating with the customer.

Jimmy John's – Delivery Driver

June 2017 – July 2019

Communicating with the team, learning the menu in a timely fashion, handling money honestly/properly, being able to help with cleaning as needed and delivering orders to customers in a freaky fast manner.

Jimmy John's – Catering Manager

June 2018 – July 2019

Building brand awareness and sales by facilitating execution of catering orders and following-up with clients to ensure lasting business and long-term growth.

Domino's – Assistant Manager, Level 3

January 2015 – June 2017

Managing store's labor percentages appropriately, training new members properly, completing quality control of all food served, and maintaining tight control of all financial aspects of the store.
